THE DAILY PRESS.

On or about the first day of January, 1860, I shal commence the publication of a paper, in the city of Raleigh, to be called "THE DAILY PRESS," which I propose to continue until the close of the present session of Congress; and if, at the expiration of that time, I receive sufficient encouragement, I shall make it a permanent paper.

The necessity for such a paper in this city, is apparent to every one. The exciting times demand that our citizens should be informed daily of the transpiring of events abroad, and there is no mode of doing this, but by issuing a daily paper, containing telegraphic dispatches of the latest news, up to the moment of going to press.

I am now endeavoring to consummate arrangements with the Telegraphic Company by which I may get a report of each day's proceedings of Congress, the foreign news, and market reports, twenty-four hours in advance of the mails. To do this will incur a heavy outlay on my part, which I expect to realize, however, from the citizens of Raleigh, Fayetteville, Hillsboro,' Franklinton, Henderson, Warrenton, Goldsboro,' Greensboro', and of the various post-offices along the lines of the Railroads.

It would be a shame if the city of Raleigh, alone did not amply support of a Daily, and I most earnestly appeal to the citizens to come forward promptly and energetically and do it. I do not expect to make money by the porject; nor do I wish to lose money. All I ask, is a sufficient patronage to enable me to pay for my telegraphic reports.

I ought to, and must have one hundred and fifty names in Raleigh, and a large list at all the places named above.

TERMS:

For one year, - - - . $6 00
" six months, - - 3 00

Payable on delivery of first number.

☞ One hundred and fifty names will secure the publication of the "DAILY PRESS,"

All that I now ask of my friends is, that they will send me their names immediately [without the money] so that I can determine by the first of January what I shall do. The money is not expected until the appearance of the first number.

MEDICAL.

Baltimore Lock Hospital.

DR. JOHNSTON.

THE founder of this Celebrated Institution offers the most Certain, Speedy, and only effectual remedy, in the world for Gleets, Strictures, Seminal weakness, Pains in the Loins, Constitutional Debility, Impotency, Weakness of the Back and Limbs, Affections of the Kidneys, Palpitations of the Heart, Dyspepsia, Nervous Irritability, Disease of the Head, Throat, Nose or Skin; and all those serious and melancholy Disorders arising from all those Destructive habits of youth which destroy body and mind. These secret and solitary practices more fatal to their victims than the song of the Syrens to the Mariners Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible

Young Men

especially, who have become the victims of Solitary Vice, that deadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with all confidence.

Marriage.

Married Persons, or, Young Men contemplating marriage, being aware of Phisical weakness, Organic Debility, Deformities, &c., should immediately consult Dr. J., and be restored to perfect health.

He who places himself under the care of Dr, Jhonston may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physcian

Organic Weakness

immedietely cured, and full vigor restored.

This disease is the penalty most frequently paid by those who have become the victims of improper indulgences.—Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue.—Now, who that understands the subject will pretend to deny that the power of Procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to the body and mind arise.—The system becomes deranged, the physical and mental powers weakened, nervous debility, dyspepsia, palpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, etc.

Nervous Debility.

Weakness of the system, Nervous Debility and premature decay generally arise from the Destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who who are most apt to become its victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System. Cough, and Symptoms of Consumption, also, those serious mental effects, such as loss of memory, depression of spirits, or peculiar fits of melancholy, when the truth is, they have been caused by indulging in pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their country, a pleasure to their friends and ornaments to society.

N MERCURY OR NAUSEOUS DRUG USED.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the first Hospitals of London, Paris, Philadelphia, and elswhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the head and ears when asleep great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

A Certain Disease.

When the misguided and imprudent votary of pleasure finds he has exhibited the seeds of this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the unconstitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains, in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till as last the palace of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration, till death puts a period to his dreadful sufferings by sending to "that bourne from whence no traveler returns," To such, therefore, Dr. Johnston pledges himself to preserve the most inviolable secresy, and from his extensive practice in the first hospitals in Europe and America, he can confidently recommend a safe and speedy cure to the unfortunate victim of this horrid disease.

It is a melancholy fact, that thousands fall victims to this dreadful poison, mercury, ruin the constitution and even send the unfortunate sufferer to an untimely grave, or else make the residue of his life miserable.

Take Particular Notice.

Dr. J addresses all those who have injured themselves by private and improper indulgences,

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pain in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irratability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY—The fearful effects upon the mind are much to be dreaded: Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages, can now judge what is the cause of their declining health. Losing their vigor, becoming weak, pale and emaciated have a singular appearance about the eyes, cough and symptoms of consumption.

Dr. Johnson's Invigorating Remedy for Organic Weakness.

By this great and important remedy, weakness of the organs are speedily cured, and full vigor restored Thousands of the most nervous and debilitated, who had lost all hope, have been relieved. All impediments to Marriage, Physical or Mental Disqualified noe, Nervous Irritability 'Tremblings and or exhaustion of the most fearful kind speedily cured Dr. Johnson

MISCELLANEOU

Young Men.

Who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions, or at school—the effects of which, are nightly felt, even when asleep, and if not cured, renders impossible, and destroys both mind and body should apply immediately.

What a pity that a young man, the hope of his country, and the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons before contemplating

Marriage

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourl darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another, becomes blighted wit our own.

ENDORSEMENT OF THE PRESS

The many thousands cured at this institution with the last fifteen years, and the numerous important Surgical Operations performed by Dr. Johnston witnessed by the reporters of the papers and many other persons, notices of which have appeared again and again before public, besides his standing as a gentleman of character and responsibility, is sufficient guarantee to the afflicted.

E. ANTHONY,
308 Broadway, New York.
After May 1st, 1860, at 501 BROADWAY, two door from the St. Nicholas Hotel.

The Stereoscope is the most instructive, interesting, entertaining amusing, and exciting of modern inventions.

None are too young, none too old, none too intelligent, none too uneducated, to *acknowledge its worth* and beauty.

No home is complete without it, and it must and will penetrate everywhere,

It presents to your view every part of the world, in all the relief, boldness, perspective, and sharpness of detail, as if you were on the spot.

Photographers are everywhere exploring Europe, Asia, Africa, America, in search of the grand and the beautiful, and the results of their skill are constantly enriching our stock.

We have an immense variety of paper Views of Scenes in Paris, London, England, Scotland, Ireland, Wales, France, Belgium. Holland, Switzerland, Spain, The Rhine, Versailles, St. Cloud, Flontainebleau, Tuilleries, Itally, Turkey, Egypt, Athens, the Holy Land, China, India, Crystal Palace, also Groups Historical amusing, marriage scenes, breakfast scenes, pic-nics statuary, &c., &c. An exquisite assortment of Illuminated Interiors of Palaces, Churchea and Cathedrals of France, Itally, &c., &c. The effect of these illuminated views is most remarkable.

Eevery Gentleman of Wealth and Refined tast should have in his drawing room some of our exqusite views on glass with a revolving stereoscope, showing 12. 25, 50 or 100 scenes, Nothing can be more fascinating, and one can offer no greater treat to a friend fond of the picturesque and the beautiful.

Anthony's Instantaneous Stereoscope Views are the latest Photographic wonder. They are taken in the fortieth part of a second, and everything no matter how rapidly it may be moving is depicted as sharply and distinctly as if it had been perfectly at rest. This gives an additional value, for to the beauties of inanimate nature it adds the charm of life and motion. The process is a discovery of our own, and being unknown in Europe, we receive from London and Paris large orders for Anthony's Instantaneous Views of American life and scenery.

Among other things we have just published Stereoscopic Illustrations of the scene of the FULTON STREET PRAYER MEETINGS, in which many hearts feel an interest. The particulars of this will be found in our catalogues.

Our Catalogue of subjects and prices will be forwarded to any address on receipt of a stamp.

Parties at a distance sending us $3, $5, $10, $15, $20, or $25 can have a good instrument and such pictures as they may request, sent by express.

Veiws alone, (without instrument]can be sent by mail.

Parties who wish to be advised of everything really valuable in the line that comes out, may send us their names to place on record, and we will keep them posted at their own expense.

CAN'T TRY IT.—Our opposition friends in this section of the country do not seem to be alive to the importance of getting out a full ticket against the Democracy, taking into consideration the fact that they have got a hobby which will be so popular, according to their theory, that it will carry the State! *They don't dare bring out a ticket although we have two* independent Democrats running, and all opposed to ad valorem! Just think, gentlemen, how the ad valorem vote will be divided!! And if your hobby is so just, so equal, so popular and so necessary to be adopted, why, oh why, do you not send out your fast trotting nagg?

Democracy of North Carolina, take our advice; do not believe the reports that are being circulated about the popularity of the humbug ad valorem, in certain localities. It's all gas! Five candidates in the field in the Cape Fear region, and all opposed to ad valorem; yet, the Constitutional Union-National Opposition-Enforcement of the Law-Know-Nothing party won't place any thing upon the track!!! *Give it circulation*—it is a fair sample of an expose of the K. N. gasconade!

☞ We are pleased to see that our valuable cotemporary and colaborer the Petersburg *Press* has made an arrangement by which the paper is to be increase in circulation and enlarge by a *merger* with the Richmond Index. We wish Mr. Philips all success in his new undertaking. The Press is worthy the support of the Citizens of the old deminion without respect to party.

☞ We neglected to notice the fact that at the [illegible] of the candidates in this place last week, S. W. Douglas, and A. H. Dewar, Esq'rs, declared themselves. They all favor the railroad, and are opposed to ad valorem. They have heretofore been democrats.

New Haven City Election.
Glorious Democratic Victory 960—Majority!

The annual City Election took place in New Haven on Monday, and Harmanus M. Welch, Esq., Democrat, was elected Major by a majority of 960. Welch received 2670 votes; Willis Bristol, b. r., 1710—total vote, 4,380. The Democrats also carried their candidates for Clerk, Treasure Auditor, Collector and City Sheriffs; by overwhelming majorites.

The City is so outragously gerrymandered, that the Blacks carry three of the six wards, but the Democrats control the city by the casting vote of the Mayor.

The Democats carry the 3d ward by 487 majority, (Alderman's vote,) the 4th by 68 majority; 5th by 4[illegible].

The Blacks carry the 1st ward by 55 majority; 6th by 1[illegible]4 majority—aggregate 221, Democratic majority on Alermen, 758.

From these figures the people will see how unfair the Black Republicans are in their legislation. They formed the Wards of New Haven into most unequal parts in order that their party might carry the city at the annual elections. They legislated not for the welfare and just rights of the people, as they were, by their oaths, bound to do, but for a mere party. Even in this, they have failed to secure the object of political success. They lose the City, and stand before the public as the authors of legislation which is an outrage upon fairness, justice and right.

The Democracy of New Haven, who bear the National Democratic standard so gloriously, and with such overwhelming majorities, are deserving of the thanks of their fellow Democrats.
Hartford (Ct.) Times.

RELIGION OF THE JAPANESE.—The orthodox religion of Japan is Sintoo—all worship the sun. Their belief is that the world was regenerated through the instrumentality and appearance on earth of a female, and after having performed this great and good work, for which by God she was ordained, she ascended to heaven and became embodied in the sun. Their national flag is emblematical of their religion displaying as it does the sun in all its purity upon the white field. There are other sects, and among them the most numerous would appear to be the followers of Buddha. Many suppose that Budbhism is the principal creed, from the fact that its followers number three hundred and twenty millions; this and the Mahomedan religion being the principal creed or relsgion of the nation of the East. The founder of Buddhist religion was a man called Sakya Sinha, who was born, as was supposed, two thousand four hundred and twenty years before the Christain era. It is not known for a certainty when Buddhism was first introduced into Japan. The statement so often made that Christianity is not at the preseet in any way tolerated, is a mistake, for Government is far from being intolerant in religious matters. The people of Japan attend very little to religious matters. Religion if a matter of business which is attended to altogether by the Makado and his priest. Some of the Japanese attached to the Embassy worship Buddha, some Sintoo, some worship nothing. The two Ambassadors and one of the interpreters are Buddhists; the Censor has no particular religion; the Vice-Governor is partly Sintoo and partly Buddhist.

Our New York Correspondence.

NEW YORK, May 24, 1860.

EDITOR OF THE CAROLINIAN:

Political eyes are now all centered on Baltimore. The friends of Judge Douglas are still confident, while, on the other hand, political *quidnancs* insinuate that arrangements have been made to throw the little giant overboard and to take up a man less objectionable to the Charleston seceders. No reliance can be placed on any of these rumors, which may be regarded as representing the feelings of those who set them afloat. Some pretend that it has been decided to nominate Guthrie, others swear that Saymour, of this state, is to be the man, and a third clique wink knowingly and whisper in your ear that the thing is all "set" for Breckinridge. And so it goes—every man "blowing" for his favorite. But the fact is that democratic politics are in such a muddle that the leaders of the party know no more of what will be the result of the Baltimore convention than the rank and file do. Even many of the delegates are going to Baltimore without any fixed purpose, and those who have one would not let ten cents that they will be able to accomplish it. In short, "and not to put too fine a point upon it," democrats here, as elsewhere, are all "waiting for something to turn up."

I see that some southern States are sending delegates to both Richmond and Baltimore. The hard shell democracy of this state have appointed ten commissioners," four from this city and six from the State, to the Richmond convention. These commissioners are instructed "to do all in their power to promote harmony between the conventions of Richmond and Baltimore, or, in failure of that result, to act as delegates, and cast the vote of the Empire State for a candidate agreeable to the country, and likely to promote harmony." It is to be hoped that the members of both conventions will see the necessity of pulling together, to keep the federal government out of the hands of the abolitionists. One thing may be set down as certain—*no man nominated at Baltimore will carry the state of New York unless he is cordially and actively supported by Fernando Wood and the hard shell democracy.* Interested office-seekers may talk till doomsday, and endeavor to make the democracy of other States believe that Wood's influence is small, and chiefly confined to the city; but every unprejudiced man in New York knows, and will admit, if you question him, that thousands of democratic voters all over the State look upon Fernando Wood as the ablest and squarest man of the party in this State, and that they will secretly or actively oppose, or coldly or enthusiastically support, the Democratic candidate for the Presidency, accordingly to the cue they may receive from their leader. Wood's friends are true to him, and are anxious to be revenged upon those politicians who were instrumental in causing the delegation of "hands," which he healed, to be rejected by the Charleston convention. Wood himself, is exceedingly anxious to see the party reunited, and would make any reasonable sacrifice for so desirable on end. At the same time, he knows he has been unfairly treated, and is conscious that the political influence he wields is more than sufficient to enable him to give the large electoral vote of New York to which ever of the candidates he chooses.

Summer is now fairly upon us. The Central Park, which has at last got to be a place worthy of the commercial metropolis of the New World, is the favorite promenade. The Hamburg swans on the lake are much admired. The walks, the drives, the sunny hights and sequestered shades, the tiny hills and vales, the rude declivities, the graceful plains, the rocks, the houses, the vehicles and the people all constitute a picture of active life and brilliant beauty. When the Summer arrangements are all completed, and fancy boats fly upon the shiny waters, the park will be a delightful retreat for New Yorkers, and an "institution" which strangers in the city will always make a point of visiting.

A swimming school is about to be opened here for ladies, after the model of those of Paris. The teacher of this useful art is himself, a native of the capital of fashion, and, being a good-looking, graceful, young gentleman, will not fail to be well supplied with fair pupils. Athletic sports of all kinds are coming more and more into vogue here for both sexes. Base ball, boating and cricket are becoming more popular every year, and are countenanced by many of our first clergyman. Billiards is the great in-door game in the private houses of the wealthy. Very few first class houses are put up in any part of the State, in which a large room is not set apart for one of Phelan's billard tables. Ladies of *ton* look for their billard table, in commencing to keep house, as naturally as for their piano forte. Apart from the fact that a billiard table furnishes an exellent means of physical recreation for ladies, when the weather puts a veto upon out door pastimes, sedate mations favor the introduction of the game into private houses, because it keeps fathers, husbands and sons from being obliged to resort to public saloons when they desire to play. Some of our lady players in New York handle the cue with a dexterity surpassed by few amateurs of the sterner sex, and with a grace that Phelan himself might well envy. The business of manufacturing tables to meet the increasing demand, has risen to an importante branch of industry. In the establishment of Phelan& Collender some 200 hands are constantly employed. A far lager amount of mechancial shill and accuracy is required to make a billiard table than to make a piano; beside which, however a good mechanic a man may be, he must also be a skillful player, and have learned thoroughly by experience the scientific requirements of a first class table. It is that which has given to Phelan's establishment all but a monopoly of the business, apart from the *prestige* of his championship, three or four of his patented improvements in cushions are considered indispensable by all crack players, professional and private.

The tour of Europe will soon be considered indispensable to the education of an American gentleman. For the past ten years, the number of persons who annually leave New York for Europe has been steadily increasing. Every steamer that has left the port, this reason, for the other side of the Atlantic has arrived as many passengers as it could well accomodate. The clergy of our country are leaving us by troops, for recuperation or enjoyment. The pulpit of America cannot do a better thing than to indulge itself in this manner. In fact, a trip to Europe does every American good, in more ways than one; there is nothing like the rubs that our national vanity gets abroad to polish us into a shining example of liberal opinions and estimates of matters and things in general.

No end to "distinguished foreigners." Soon, no man under the rank of an emperor will be considered by a New Yorker worth going across the street to see. The Prince de Joinville has been with us for some days; the Japanese Princes "have been invited and are expected to be present;" the Prince of Wales will be here in a few months; and the last steamer from Europe brings us the news of a contemplated visit to New York by Prince Napoleon good for New York.

Davis, of Md., and Anderson, of Ky., both of whose seats are contested, voted with the majority. The rest of the Southern Oppositionists voted with the minority.

A resolution was adopted in opposition to the President,s protest against the authority of the Covode committee, to investigate the acts of the Executive. Yeas 87, Nays 40.

ARRIVAL OF THE AFRICA—THE SICILIAN INSURRECTION—GARIBALDI'S POSITION —THE GREAT EASTERN—&C.

NEW YORK, June 8.—The Africa has arrived from Liverpool.

She brings no confirmation of the rumor that Garibaldi had entered Palermo. The latest telegram from that city, dated on the eveing of the 23d, announces that Garibaldi's troops were still in position near it.—20,000 insurgents occupied the heights which command the city, and an attack was momentarily expected.

Another despatch, received at Turin, dated Palermo, the 26th, says that Garibaldi had approached near the Palermo Heights, which were occupied by the insurgents, and that an attack was imminent.

General Larza commanded the Neapolitan troops, and demanded an armistice of Garibaldi.

An Austrian flotilla arrived at Naples on the 21st.

Advices from Messina of the 21st says that the insurrection had broken out at Aderno and Francavilla.

The English and French residents at Palermo had taken refuge on board their respective national vessels.

Another despatch says that Garibaldi's movements in Sicily are for the purpose of making that Island the basis of subsequent operations against Naples. As soon as a formidable expedition can be undertaken a decisive blow will be struck in Calabria.

Six squadrons, numbering 50 vessels will be charged with the protection of the coast, under Count [illegible]aguila, the Don's uncle.

A Cork paper of the 25th says that the American bark Charles B. Truill, which for six months has been laying off Queenstown has sailed for Liverpool. She is frieghted with rifles for Garibaldi.

A committee of the London and New York Directors decided, on Saturday, that the Great Eastern shall return from New York direct to Milford Haven.

LONDON, May 27.—Letters from Palermo of the 21st, state that public anxiety was increasing, and that the popular passions were inflamed. Several shots were fired from the balconies in Rue Toledo which were returned from the palace, and several persens were wounded. There was a panic among the public functionaries, and the directors of the official journal had fled. Yesterday the fires of the insurgents' bivouacs were seen on the heights surrounding Palermo.

The Patrie has information indicating that the assault on Palermo, would take place before the 28th.

ROME, May 23.—Prince Walewski the new Russian Plenipotentiary, left to day for Naples. It is asserted that he is the bearer of very precise instructions with reference to Sicily.

PITTSBURG, Pa., June 6.

GREAT DOUGLAS MEETING IN PITTSBURG.—An immense Democratic mass meeting was held in this city last evening at which resolutions were adopted unanimously in favor of Senator Douglas, and denunciatory of Senator Bigler and other Democrats of a like stripe.

During the evening, Governor Todd, of Ohio, gave an account of the proceedings at the Charleston Convention, and Gen. Stokes, of Westmoreland, made a precious onslaught upon President Buchanan, disdaining to accept of Bigler as an antogonist.

Col. M. Cook of Ohio, and Messrs. Gibson and Linn, of this State, severally spoke in a similar strain. The enthusiasm of the masses, and the applause manifested at the repetition of the name of Douglas, was at times overpowering.

DEMOSTIC TRAGEDY.—The Vicksburg Whig; of May 26th, relates:

A very distressing affair occurred in this county, at the residence of Mr. U. G. Flowers, last week. Mr. Lafayette Lee shot his wife with a revolver, and was then himself shot and killed by Mr. Flowers. It seems that Lee and his wife had not been living very happily together for sometime, and he being a rather destitue condition, became very low-spirited, and threatened on several occasions to kill himself and wife, but she never paid any attention to his threats. On Friday evening, Mr. Flowers, (a relation with whom Lee was living,) and Mrs Lee sat down to play a game of chess. The game had not progressed when Lee, who was sitting near them, drew a revolver, and without saying a word, shot his wife twice.

As she was falling to the floor Mr. Flowers caught her, but seeing that Lee had the pistol pointed at him, he drew a small pocket pistol and fired, killing Lee almost instantly. Mrs. Lee, it is thought, can not recover.

SARSAPARILLA. This tropical root has a reputation wide as the world, for curing one class of the disorders that afflict mankind—a repution too which it deserves as the best antidote we possess for complaints. But to be brought into use, its virtues must be concentrated and combined with other medicines that increase its power. Some reliable compound of this character is much needed in the community. Read the advertisement of Dr. Ayer's Sarsaparilla in our columns, and we know it needs no encomium from us to give our citizens confidence in what he offers.—*Orogan, Syracuse, N. Y.*

GRAND CATHOLIC CATHOK IN ROME.—The *Metropolitan Record*, organ of Archbrshop Hughes, says:

"Our advices from the Eternal City, brought out by the Persia inform us of the conception in the Capital of the Christan world of one of the grandest and most elevated political ideas of the nineteenth century. Some members of the Sacred Collegehave proposed to the Pope the subject of the assemblage in Rome of distinguished delegates, adminstrtive or deputised, from every Chtholic power in the world. This body, when organised is to constitute a commission of inquiry into the actual condition of temporal affairs in the State of the Church and having collected a calm and unprejudiced statement on every topic, drawn up a report suggesting to his Holiness what amount of popular reform is realy repuired and should be granted and what portion or portions of the demands of his subjects should be refused. It is said that the suggestion has afforded much pleasure to the mind of the Holy Farther.',

MR. RADGER'S SPFECH.

The Hon. George E. Badger, one of the Opposition Electors for the State at large, addressed the peope in the Court-house, in this place, on Monday evening last. We did not hear Mr. Badger, but we learn that he spoke mainly on *ad valorem* and Bell and Everett.

It is a little strange that Mr. Bager should come forward at this late period of his life to advocate a scheme even apparently intended to benefit the great mass of the people. We say apparently intended, for it will be obvious to every intelligent person who investigates the subject that Mr Badger's plan of *taxing every thing*, instead of diminishing the burdens of the great body of the peeple, will actually increase them. But Mr. Badger, for the first time in his career as a public man, professes sympathy with the masses, and would be their champion in establishig equality for them! Where was he when Free Suffrage was before the people? Why, he opposed it with all his pewer; and even now, in arguing in favor of *ad valorem*, he assums that as the Democrats did wrong (for that is the substance of the assumption) in advocating and carrying Free Suffrage, the Opposition have a right to do wrong too by advocating and carrying *ad valorem*

Equally strange is the course wich Mr Badger is pursuing in relation to Mr Bell and the Kansas-Nebraska act. It is well known that Mr. Badger stood side by side with Judge Douglas as one of the champions of that act; yet he now stands upon a platform, and most probably himself framed the platform, which denounces that act as having "abrogated a long-established compromise!" It is well known, too, that Mr. Bell voted against that act; that Mr. Badger, having authority to do so, pledged Mr. Bell in its favor before the vote was taken; that Mr. Bell denied Mr. Badger's authority thus to pledge him; that Mr. Badger insisted on his authority *as from Mr. Bell himself*; and that Mr. Bell charged falsehood on Mr. Badger in reply. If this issue of verdcity has been settled the public has never been informed of it. If Mr. Bell—assuming the fact to be so—has ever atoned to Mr. Badger and to the Whig party of this act of treachery on his part, the country does not know it. And yet Mr. Badger, under these circumstances, could express his "admiration" for *the man* John Bell, and could commend him to his friends as a gentleman and a patriot!

Let Mr. Badge's friends and admirers clear up thes facts, if they can.—*Standard*,

☞ AT the request of a number of political friends, I have declared myself a candidate to represent Cumberland and Harnett, in the House of Commons of the next Legislature I stand upon the State platform of the Democratic party, and *am bound to be elected or break a trace*

THE WATERING PLACES, AND HOW TO GET TO THEM.

The watering places are all activity, preparatory to the opening for the summer, to the invalid and the pleasure-seeker, Many, fortunate in the possession of wealth, will visit the most celebrated, in detail, and enjoy the pleasures of each. Good living, cool breezes, music, dancing, fine scenery and beautiful women, above all, are far more attractive during the warm season, than hot streets, dusty stores, offices and workshops; besides, elegant leisure is far preferable to hard, hot labor. Many sigh over their inability to join the throngs of pleasure, and yet make no effort to go. Now, let such save a little every week from their expenditures, and enclose to Messrs. WOOD, EDDY & Co., of Wilmington, Delaware, and St. Louis, Missouri, $2 50, $5 00, $10 00, or $20 00, for a share in one of their legal Lotteries, which they will receive by return mail. It may draw a good prize.

SCOTTISH AMMRICAN JOURNAL

SECOND VOLUME,

St[illegible] November, 1858.

IN announcing a new volume of the SCOTTISH AMERICAN JOURNAL, the Proprietor begs to call attention to those features of the paper which have already secured for it a large share of support, and which ought to commend it to the patronage of a still more numerous class of readers

The special feature of the paper is that it is a SCOTTISH journal containing notices of every event occurring in Scotland that can be regarded as of the least interest to natives of the country now residing on this continent The news of the whole country is carefully collected and condensed, so that no event which it concerns Scotchmen to know is ever ommitted from the columns of the paper Articles relating to Scottish subjects original and selected are also published from time to time and the more special character of the Jonrnal is sustained by literary features of national interest in the form of tales, historical and miscellaneous sketches anecdotes and poetry.

While thus national in its character so far, these special features occupy comparatively limited space in the eight large pages of which the paper consists, three-fourths of which are devoted to news and other general matter calculated to be of interest to all classes of readers, and not to Scotchmen alone. A carefully compiled epitome of intelligence from England, Ireland the continent of Europe and all parts of the world is given in every number, with extracts from the leading articles of the British Journals on the most interesting public topics of the day

With a view to increase the popular interest of the "Scottish American Journal," and to add to its value as a family paper arrangements have been made for a series of attractive tales founded chiefly on subjects connected with Scottish life. The first of these stories entitled "Clara Howard; a tale of the Crimean War," commences with the first number of the new volume. A considerable instalment of the story will be given in every number till it is completed, and will form interesting reading for the winter evenings alike for old and young. It will be followed by a succession of other tales of equally popular character

MEDICAL.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use, When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
